Mustagh Resources Ltd.

COURSE FLOW

WHO SHOULD ATTEND

```
              Introduction of
              Seismic Methods
```

| Land Seismic Acquisition | 3D Design for Land Seismic Operations | Basic Processing of Seismic Data | Vibroseis Theory and Parameter Design |

| Noise and Array Theory | 3D Design Workshop |

Non-geophysicist or Jr. geophysicist

Experienced geophysicist or for those who have taken the Introduction of Seismic Methods course

Experienced geophysicist or for those who have taken the previous level courses
